The Modesty of Women

Naturally makes them shrink from the indelicate questions, the obnoxious examinations, and unpleasant local treatments, which some physicians consider essential in the treatment of diseases of women. Yet, if help can be had, it is better to submit to this ordeal than let the disease grow and spread. The trouble is that so often the woman undergoes all the annoyance and shame for nothing. Thousands of women who have been cured by Dr. Pierce's Favorite Prescription write in appreciation of the cure which dispenses with the examinations and local treatments. There is no other medicine so sure and safe for delicate women as "Favorite Prescription." It cures debilitating drains, irregularity and female weakness. It always helps. It almost always cures. It is strictly non-alcoholic, non-secret, all its ingredients being printed on its bottle-wrapper; contains no deleterious or habit-forming drugs, and every native medicinal root entering into its composition has the full endorsement of those most eminent in the several schools of medical practice. Some of these numerous and strongest of professional endorsements of its ingredients, will be found in a pamphlet wrapped around the bottle, also in a booklet mailed *free* on request, by Dr. R. V. Pierce, of Buffalo, N. Y. These professional endorsements should have far more weight than any amount of the ordinary lay, or non-professional testimonials.

The most intelligent women now-a-days *insist* on knowing what they take as medicine instead of opening their mouths like a lot of young birds and gulping down whatever is offered them. "Favorite Prescription" is of KNOWN COMPOSITION. It makes weak women strong and sick women well.

Dr. Pierce's Medical Adviser is sent *free* on receipt of stamps to pay expense of mailing *only*. Send to Dr. R. V. Pierce, Buffalo, N. Y., 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound.

If sick consult the Doctor, free of charge by letter. All such communications are held sacredly confidential.

Dr. Pierce's Pleasant Pellets invigorate and regulate stomach, liver and bowels.

ANOTHER DIVORCE SUIT.

Within an hour after he had sailed from New York for Europe yesterday Alfred Gwynne Vanderbilt was made the defendant in a suit for divorce filed with the Supreme Court by his wife, Ellen French Vanderbilt. The nature of the action was not immediately disclosed and counsel for the plaintiff refused to say whether Mrs. Vanderbilt seeks a divorce or legal separation from her husband.

Mrs. Vanderbilt was Ellen French, daughter of the late Francis Ormond French, president of the Manhattan Trust Company and director of many railroads. Ellen, or as she was more generally known, Elsie French, was married to Alfred Vanderbilt on January 11, 1901.

Mr. Vanderbilt as the second son of the late Cornelius Vanderbilt inherited something like $60,000,000. He has been regarded as the head of the family since the estrangement which followed the marriage of Cornelius, the eldest son, to Miss Grace Wilson. During the past year or so Mr. Vanderbilt has spent much of his time abroad.

The recent scandal in which Charles H. Wilson, Mr. Vanderbilt's stable manager, and the beautiful Florence Schenck figured is said to have taxed the patience of Mrs. Vanderbilt almost to the point of exhaustion. It will be recalled that last spring Miss Schenck then engaged to a young army officer in the South, met Wilson and Mr. Vanderbilt during a horse show at Richmond and, flattered by the attentions that were shown her, jilted her fiance and went to England with the Vanderbilt string.

According to her story, Wilson represented himself to her as a single man and promised to marry her. She created a sensation by driving some of Mr. Vanderbilt's horses at the London show, but a still greater sensation was created when, upon the return of Wilson and the girl to New York, he cast her off at the steamer dock.

Alfred Gwynne Vanderbilt's name was bandied about quite considerably in connection with this story, and in the end some man of wealth made satisfactory settlements upon the girl. The notoriety which was thrust upon Mr. Vanderbilt in relation to Miss Schenck, his conviviality and his free and easy, democratic ways are probably at the bottom of the trouble.

A Woman Tells How to Relieve Rheumatic Pains.

I have been a very great sufferer from the dreadful disease, rheumatism, for a number of years. I have tried many medicines but never got much relief from any of them until two years ago, when I brought a bottle of Chamberlain's Pain Balm. I found relief before I had used all of one bottle, but kept on applying it and soon felt like a different woman. Through my advice many of my friends have tried it and can tell you how wonderfully it has worked.—Mrs. Sarah A. Cole, 140 S. New St., Dover, Del. Chamberlain's Pain Balm is a liniment. The relief from pain which it affords is alone worth many times its cost. It makes rest and sleep possible. For sale by W. F. Creighton and Richard Gibson.

BOY PREACHER'S PROPHECY.

Terrified by the announcement that the world was to come to an end yesterday morning unless there was an immediate and miraculous religious awakening in the country, over fifty families who attended the Olive Street Mission at St. Louis left Monday night for St. Charles, twenty miles away, to pray. John Moss, the "boy preacher," who has drawn crowds to the mission, told his followers that in a vision he was given a glimpse of the catastrophe that would overtake the world Monday, unless the people became converted. Moss's own mother and sister have become so imbued with his preaching that they have sold a small hotel to help defray the expenses of the mission. One woman, who says she had been dumb since birth, rushed to the altar Sunday and shouted, "Glory to God, I am saved." According to Moss the world will begin ending in St. Louis, because that is the wickedest city. An earthquake and conflagration will take place.

BRIDGE WHIST AND HORSE RACING.

Bridge whist is a greater evil than betting on horse races, according to Senator Martin, member of the subcomtee of the Senate District committee to which the anti-betting bill has been referred for report to the full committee.

"I believe more money is lost and more trouble and heartache is caused by bridge whist parties in Washington society than ever was caused by betting on horse races," said Senator Martin yesterday. The Virginia Senator made this remark after declaring that, while he was opposed to gambling in all its forms, he had not examined the Sims anti-betting bill, which passed the House last week, sufficiently to give an opinion on it. While Senator Martin has expressed himself opposed to gambling on horse races, he has not yet said he favors the passage of the Sims anti-betting bill, tacked on as it is to a bill for the widening of Benning road.

ELKS' NEW HOME.

The new home of the Elks, of Washington, was formally opened last night. Eight hundred members of the order, including a delegation from Alexandria lodge, were present.

The Elks' home is a model in building construction and from an architecural viewpoint is regarded as one of the handsomest clubhouses in the country. Built at a cost of $200,000, and fitted with the up-to-date accessories of a fashionable club, it will accommodate with ease even a larger membership than is now enrolled. The first spade of earth for the new home was turned just one year ago. The exalted ruler laid the cornerstone on June 11, attended by some of the leading Elks of the country, and by persons of high ranks in civil and political life. The dedication of the home will probably not take place until next November. An opening in honor of the ladies will be held on Easter Monday, April 20.

ALEXANDRIA GAZETTE AND VIRGINIA ADVERTISER

THURSDAY EVENING, APR. 2, 1908.

As has been stated in the Gazette Judge R. T. W. Duke, of Charlottesville, while attending a meeting of the State democratic committee recently held in Richmond, expressed his disapproval of the primary plan of nominations, and will in all probability make an effort when the State convention meets in Roanoke in June to have the plan set aside. In a statement made to a friend in Richmond shortly after the meeting of the State committee Judge Duke used similar arguments against the primary plan that have from time to time been set forth in the Gazette and said:

I am very much in earnest in my opposition to the primary plan whereby candidates for office have to pay enormous prices in order to get into a campaign. The idea is repugnant to the people of the State. In the first place, the man of moderate means is prohibited from getting into a race. I think that the offices in the State should be free to every man who desires to offer. The idea of a man having to expend at least $10,000 for the gubernatorial campaign and to be required to make two campaigns is wrong. The candidates for the nomination should bear all legitimate expenses and should be and always have been ready to take the stump and to do all in their power to make the success of the ticket certain. There will be several gentlemen in the race next year, and I know that each will get right in and do his part after the ticket is nominated. But it's carrying it most too far to expect the candidates to go up and down the State, making speeches and then when the primary is over to begin anew and do the same thing over again. Not that alone, but there is always the danger of bitterness being developed within the party by reason of the debates and discussions. It is these that redound to the discredit of the party and encourgement of the enemy. We must avoid that for good reasons. One reason is that it is unseemly and tends to destroy the party which has done so much for the State."

Some of those who are opposing Mr. C. C. Carlin for re-election to Congress urge as a reason therefor that he will not meet his opponent in debate. Mr. Carlin in the contest last spring frequently met all his opponents and acquitted himself to the satisfaction of himself and friends. But Mr. Carlin's reason for not going upon the hustings at this time is a most excellent one and is that he can be of more service in Washington to his constituents than he can be by going through the district speaking while Congress is in session and while he has much work to do. Mr. Carlin is already an active and popular member of the House; he is a regular attendant upon the floor; an active worker for his constituents, and has already gotten several important measures through Congress. He made the best speech delivered in the House on the question of the restoration of the motto "In God we Trust" to the coins and is altogether a useful member. It has for years been the custom in this district and in fact throughout the State to return a man to Congress after he has served one term and there is certainly no reason to believe that the custom will be broken in Mr. Carlin's case for he is justly entitled to a re-election.

Directors of the International Paper Company yesterday declared a quarterly dividend of 1 per cent. on the preferred stock. This is a reduction of one-half of 1 per cent. from the previous quarter. The paper trust is such a monopoly and has been making so much money that many will believe that the cut in its dividend is only a blind used to prevent a reduction in the tariff on paper and wood pulp by Congress.

The administration sends out a warning that civil-service employes who engage in undue partisian activity will be discharged. Probably this depends upon the man the employes are active for.

From Washington

[Correspondence of the Alexandria Gazette.]

Washington, D. C., April 2.

A plea of not guilty was entered by Representative Heflin today when arraigned in police court charged with shooting Louis Lundy, a negro, on a street car last week. Heflin waived a preliminary hearing and was bound over to the grand jury. Bail was fixed at $3,000, which was given. Lundy was discharged from the hospital yesterday and appeared in court today. The actions of a dozen or more negro attorneys in urging him to prosecute the case with vigor raised a considerable disturbance in the court.

Unless more foundation is laid than has been done so far for compelling the Electric Boat Company to make public its books and confidential papers, this action will not be required of the company by the special committee investigating the Lilley charges of corruption of Congress by the concern, according to facts developed today. The committee, it was ascertained, will not require the books and papers unless evidence is brought out to warrant the assumption that something bearing on the charges will be divulged. It is the opinion that this assumption has not yet been established. Lilley has already asked that expert accountants be put on the books, irrespective of what has been brought out by examination of witnesses. The committee branched off today and investigated the Berger Subsurface Boat Company.

Charges of intoxication and use of his place as postmaster to further political interests preferred against E. A. Warren, of Bristol, Tenn., have been dismissed by order of the postmaster general after investigation by a postoffice inspector. The case was one of several mentioned by the civil service commission in a letter to the President recently directing attention to the fact that political activity by a federal officeholder and use of his position to exert influence was punishable by dismissal.

John A. Benson, the fourth of the alleged land fraud conspirators, pleaded not guilty in Justice Stafford's court this morning and the work of selecting a jury to try him together with Hynde, Dimond and Schneider proceeded forthwith. Benson's arraignment followed the overruling of the plea in bar submitted in his behalf yesterday based on the refusal last year of Judge Larcombe, of New York, to extradite him to Washington. Justice Stafford held that the New York decision did not enter at all into the question of the guilt or innocence of Benson or the sufficiency of the indictment. Benson was arrested in this city some months after his release by Judge Larcombe.

The battleship Connecticut, which brought Admiral Evans from Magdalena bay to San Diego yesterday in order that he might have the benefit of the Hot Springs at Pasa Robles, has returned and rejoined the fleet. It is expected that target practice will be concluded within another week, and that the fleet will arrive at San Diego April 12 or 14. In the meantime Rear Admiral Thomas will be in command of the fleet. Admiral Evans will resume command at San Diego and will quit the sea finally upon the fleet being reviewed by Secretary Metcalf on May 8.

Another democrat in the House refused to be led today. Representative Francis Burton Harrison, of New York, rebelled against minority leader Williams' scheme to devote the national surplus to building public roads. "Madison and Monroe vetoed such bills and that is good enough democracy for me," said the Tammanyite. He added that should Williams' "socialistic policy" be adopted the States would soon be asking the federal government to feed and clothe their citizens.

Mr. Carlin has introduced a bill in the House for the relief of W. L. B. Wheeler, of Prince William county, Va.

The fight of independent tobacco manufacturers against tags and bands, said to be used by the tobacco trust to sell their product, began today before the House committee on ways and means.

Senator Dupont today introdured a bill to create a financial commission to consist of seven members appointed by the President.

Hearings were held before the committee on agriculture and Forestry today on the question of federal grain inspection.

Sixtieth Congress.

Washington, April 2.

SENATE.

The LaFollette employers' liability bill was favorably reported to the Senate today from the committee on education and labor. It was placed on the calendar.

Senator Overman introduced a resolution putting printing paper and wood pulp on the free list. He requested immediate consideration but this was refused.

The Senate has agreed to adjourn over from today until Monday.

Senator Brandegee presented a favorable report on the bill appropriating $5,000,000 for the establishment of a national forest in the Southern Appalachian mountains and in the White mountains.

HOUSE.

Speaker Cannon today answered the appeal of the publishers of the country for the removal of the duty on wood pulp and print paper by pointing to the Executive Department of the government for relief. He introduced two resolutions asking for information from the Department of Commerce and Labor and the Department of Justice as to what had been done. The duty on print paper is 15 per cent. said Speaker Cannon in discussing his resolutions. It has been that since 1890 under the McKinley law, the Wilson law and the Dingley law, covering a period of 18 years. It is claimed that the price has been advanced within the last few months. The publishers of the United States claim that the manufacturers of wood pulp and print paper, have, by agreement and combination even covering arrangements with Canadian manufacturers, arbitrarily limited the production and advanced the price of print paper. If the claim of the publishers is correct the manufacturers of print paper are subject to penalty and the trust can be dissolved and enjoined by proceedings in equity. Also if the claim of the publishers is correct, the advance of the price is not due to the duty but results from the illegal trusts and combination. If the duty were repealed it would not interfere with the illegal trust agreement."

Gen. Sherwood (dem. O.) presented petitions signed by over 15,000 old soldiers, for his dollar a day pension bill.

The House voted $10,000 to allow the Secretary of Agriculture to test the availability of various plants to make print paper.

The House defeated a motion to put wood pulp and print paper on the free list.

SENATOR BAILY THREATENED.

The leaders of the Baily and anti-Bailey forces at Dallas, Texas, are now trying to prevent bloodshed or a tragedy, for the bitterest political feeling ever known in the State is evident in the pending campaign to see if the democrats will send Senator Bailey to Denver as a delegate at large. The primary election is to be held May 2, and speeches by supporters of both are being made all over the State.

Senator Bailey will open his campaign at Lufkin next Saturday and go to Georgetown on Monday. Threats have been made to have anti-Bailey speakers to demand a division of time. Mr. Bailey refused to agree on the ground that they are assailing his character and that self-respect prohibits his entering into joint debate.

Clarence Ousley, editor of the Fort Worth Record and State campaign manager for Bailey, in large type served warning yesterday against those who are believed to be in a conspiracy to provoke a personal encounter. He declares that knowledge has come to the Bailey side during the last 10 days of two threats to assassinate Senator Bailey.

News of the Day.

Robbers blew open the safe in the bank at Mounds, Okla., at 3 o'clock this morning and secured $6,000. They escaped before the citizens were awakened.

After leaving a dollar each to her eight children, Mrs. Margaret Cullen, whose will was filed for probate yesterday, leaves the rest of her estate to St. Paul's Catholic Church, Washington.

The New Jersey House yesterday passed the Senate joint resolution providing for the return of southern flags taken during the civil war. The flags are to be given back to the organizations from which they were captured, the return to be made under direction of the governor.

The advocates of the anti-racetrack gambling bills scored a victory in the New York Senate last night, when, after a debate that continued all day, they succeeded in restoring to the form in which it was introduced Senator Agnew's bill amending the penal code, making gambling on racetracks a felony.

Consideration of a measure for the adjudication of the claims of states against the government account of the disposition of the proceeds of public lands occupied much of the time of the Senate yesterday. Consideration of the agricultural appropriation bill was continued in the House.

Evidence was forthcoming in New York last night that serious efforts are being made to heal the family breach occasioned by Mme. Anna Gould's determination to accept the hand of Prince Helie de Sagan. Among all parties to the controversy there was a tendency toward conciliation.

Suit has been brought by Frank P. Smith, formerly of Topeka, Kan., but living now in New York, against Mrs. William K. Vanderbilt, jr., and Mrs. Hermann Oelrichs, to recover, on the ground that he is a half-brother of the late Mrs. Charles L. Fair, one-seventh of her estate, or about one million dollars.

In Ohio, 465 coal mines have shut down, 50,000 men being out of work. The Pittsburg district has 40,000 miners out of work. Throughout Missouri, Kansas, Oklahoma and Arkansas, 35,000 men have quit. Every coal mine in Iowa is closed, affecting 15,000 men. The shuting down of all mines in Illinois forces 8,000 men into idleness.

Ridicule was the only attention given the charges preferred against Dr. James R. Day, chancellor of Syracuse University, by Rev. George A. Cooke, of Brandon, N. Dr. T. J. McGuire, a prominent physician of Parkersburg, W. Va., had a desperate encounter at his home yesterday with Rev. Father William Walsh, a priest of Lewis county. Father Walsh, it is alleged, had been drinking very heavily for some days, and the physician tried to get him to return home. Yesterday the priest entered Dr. McGuire's house and drew a revolver, which the physician wrested from him after a struggle. The police arrested Father Walsh, who was fined in the Police Court for carrying a revolver. Later he was rearrested upon a State warrant, charging felonious assault. Father Walsh was formerly assistant rector of St. Xavier's Catholic Church at Parkersburg.

William F. Harig, the former Baltimore ward politician, was remanded to jail today to await hearing on the charge of murdering James M. Mahon, the well-known sporting man.

EUREKA!

Yes, I Have Found It at Last.

Found what? Why that Chamberlain's Salve cures eczema and all manner of itching of the skin. I have been afflicted for many years with skin disease. I had to get up three or four times every night and wash with cold water to allay the terrible itching, but since using this salve in December, 1905, the itching has stopped and has not troubled me.—Elder John T. Ongley, Rootville, Pa. For sale by W. F. Creighton and Richard Gibson.

DROWNED BY FLOOD.

A dispatch from Bluefield, W. Va., says three men were drowned and five others had narrow escapes from death yesterday afternoon at Rock, a small town on the Norfolk and Western, by the collapse of a suspension foot bridge over Bluestone river.

The floods of the few days past have raised the waters of Bluestone river to an unprecedented height.

The downpour of rain continues near Elkhorn. The river is out of its banks and box and coal cars and small buildings, carried away by the torrent, have caused bridges to be swept from their foundations.

A dispatch from Charleston, W. Va., says as a result of heavy rains Tuesday and Tuesday night the Kanawha river and its tributaries are rising rapidly. A stage of thirty feet is expected. Landslides in the New river canyon have blocked Chesapeake & Ohio Railroad trains.

The northern and southern sections of Lexington, Ky., are partly submerged, and many families have been driven from their homes.

The Duchess of Marlborough, who came to New York nearly a month ago, sailed on the Mauretania yesterday.

LETTER TO H K FIELD & CO

Alexandria, Va.

Dear Sir: Clear pine and pine full of knots are two different things; they are both called pine.

Clear paint and paint adulterated with whiting, china clay, ground stone, barytes, benzine and water, are different things; they are both called "paint."

It takes less labor to work clear pine than pine knots, and costs less money.

It takes less labor to paint clear paint than half whiting or half china clay or half ground stone or half barytes. These mixtures make more gallons not more paint. There's no more milk in two quarts of milk-and-water than in one quart of milk. If you paint two gallons for one you pay double for labor; and labor costs more than paint.

You know how it is with clear lumber and knots. It's the same with all paint and half-paint.

A day's work is a gallon of paint or half-paint.

Apply it to business. Suppose you have two houses, same size: paint one Devoe, the other the other prominent paint in your town.

It takes 10 gallons Devoe, $1.75 a gallon, $17.50 for paint: $3 a gallon for labor, $30 for labor: whole job, $47.50.

It takes 15 gallons of that other paint, same price, $26.25 for paint; $3 a gallon for labor $45 for labor,; whole job $71.25.

And which wears best, clear pine or pine knots? Devoe wears better than that weak paint.

What warrant is there for saying that paint is weak? It takes more gallons.

Yours truly,

F W Devoe & Co.

Conditions in Hayti.

Port au Prince, April 2.—The Haytian government issued a formal denial today of the charge that political executions are continuing despite all assurances given the representatives of foreign powers that they have stopped.

The statement has failed to allay alarm. It is not believed in diplomatic circles, and its supposedly misleading character is taken by foreigners as a final proof that the government is not to be trusted.

Refugees in the French legation have furnished Minister Carteron with what he considers absolutely convincing evidence that several suspected government plotters were shot no longer ago than yesterday morning and that Arsene Chevry, the poet, was among the victims.

Minister Carteron no longer conceals the fact that he has armed the legation in anticipation of an attack. He looks for a government attempt to take the refugees by force.

There is a strong suspicion that General Coicou, chief of the Port au Prince military district, is stirring up the people to attack the whites. He is openly accused of responsibility for a similar plot which no one now doubts would have been carried out but for the opportune arrival of foreign warships.

Marines are held in readiness for immediate landings from the United States cruiser Des Moines and the German cruiser Bremen, which, with the United States gunboat Marietta, are still in the harbor. The French cruiser D'Estree is hurring from St. Thomas where it took a party of political refugees.

Undesirable Guests.

New York, April 2.—Despite the fact that Manager James B. Regan, of the Hotel Knickerbroker, insists that E. R. Thomas and Evelyn Nesbit Thaw were the unwelcome guests he asked to leave the hotel dining room Monday night, denials were forthcoming today from those interested. The famous "doubles" of the couple were once more rung in to take the blame of the episode. Manager Regan is firm in his identification. He says Evelyn and Thomas entered the dining room about the time after theatre guests were arriving. Evelyn was at once recognized by many of the other diners. At once Mr. Regan called Thomas aside and told him they would have to leave, and asked him to inform Evelyn her patronage was not desired. The couple left immediately, and so diplomatically was the ejectment engineered, that no one in the place was the wiser.

New York, April 2.—Evelyn Nesbit Thaw is preparing to sail tomorrow for Europe, according to an announcement made today at the Hotel Prince George, where she has been living since she gave up her home in Park avenue. Her arrangements for the voyage were made suddenly after the publication that she and E. R. Thomas were forced to leave the Hotel Knickerbocker dining room Monday night by Manager James B. Regan. It is Evelyn's purpose, it is stated, to remain in Europe until after her suit for the annulment of her marriage to Stanford White's slayer has been disposed of.

More Rioting in Philadelphia.

Philadelphia, April 2.—Further serious rioting between negroes and Italians seeking employment on the new Hammerstein Opera House occurred here today, and before the police could quell the disorders several of the fighters were badly hurt. The fresh outbreak has caused the greatest alarm, as it is feared the race feeling may become general and attacks on some of the foreign districts or negro quarters follow. In the fighting that occurred today stones were hurled and clubs wielded, while a few knives and revolvers were flourished. So far as known, however, no one was slashed or stabbed and there was no shooting. Once fighting started, it extended for several blocks south of the Opera House site. Luckless Italians on their way to work at other places were pounced on by negroes and badly beaten. For an hour the rioting continued and the foreigners had the worst of it in all the encounters. At one time a party of high school boys broke into the melee, taking the side of the Italians. Several were roughly handled by the enraged negroes. It was not until mounted police arrived that any progress was made in quelling the riot. When they had cleared a space by riding through the crowd, patrolmen were able by repeated charges to drive back the mobs and clear the streets.

Cost of Maintaining Royalty.

Berlin, April 2.—Vigorous opposition is already developing to the bill soon to be introduced in the Prussian Diet increasing the kaiser's civil list to cover the increased cost of living and provide for his growing family. Leaders of the liberal parties argue not only that his majesty's present allowance of $8,930,000 annually as King of Prussia is sufficient, but that the empire ought to do something for him as kaiser instead of throwing the entire burden on a single state. There will be a strong protest, too, against provision for separate establishments for the royal children, who, as they marry and set up for themselves, are becoming a heavier and heavier burden. The universal manhood suffragists will have their innings, too, and there is likely to be some very outspoken discussion of the scale on which European royalties generally live at the expense of their subjects. There seems a strong probability that the additional allowances will be refused, at least unless important concessions are granted in return.

New York Stock Market.

New York, April 2.—Trading was influenced again today by uncertainty in regard to the financing of the maturing Erie notes, and for a good part of the first hour price movements were nearly all to lower figures, the greatest declines being sustained in Erie preferred, Reading was under some pressure and declined over 1 point to 102½.

There was a little rally just before the end of the hour, due almost wholly to buying by brokers that have been connected closely with Lawson's market ventures.

ANOTHER GERM DESTROYER.

Herpicide Is Death to Dandruff Germs

The germ burrows into the scalp, throwing up the cuticle in thin scales, called dandruff, or scurf, and digging at the root of the hair where it saps the hair's vitality. First comes brittle hair, then lusterless and dead-like hair, then falling hair, and, finally baldness. Nine-tenths of the hair troubles are caused by dandruff. Without dandruff hair will grow luxuriantly, as nature intended. "Herpicide" kills the dandruff germ leaving the hair to grow unhampered, as it does with the American red man.

An April Fool.

Turin, Italy, April 2.—The Turin Gazette thought it would be funny to "April fool" Italy into thinking Miss Katherine Elkins was due in the country yesterday. It printed a bogus telegram saying the object of the Duke of Abruzzi's courtship would arrive in Turin from Paris late in the afternoon. Turin turned out in a body to welcome her. The station was packed at the hour the train was expected. Newspaper men and photographers, press, professional and amateur, swarmed on the platform. The train thundered in. A pretty English girl alighted. The crowd mistook her for Miss Elkins. It surged forward. It nearly mobbed the girl. It cheered frantically. The reporters begged for interviews. The girl could not speak Italian. The reporters could not talk English. The girl became frightened. She could not understand what was the matter. She cried. Finally an interpreter elbowed his way to the front. He talked a moment to the girl. Then he explained. The crowd laughed and dispersed. The English girl was angrier than any one. She jumped in a carriage and drove to the nearest hotel. She has recovered today but for a time she was on the verge of hysterics.

Attempt to Kidnap.

New York, April 2.—Andrea Saippa's love for pretty Pauline Laboz, 14 years old, which led him to try to run away with the girl today, has brought him into serious trouble. Pauline's father objected to the match on account of his daughter's age. Today Andrea waited in a cab at First avenue and 31st street where Pauline passed daily going to work in a nearby cigar factory. When the girl approached Andrea sprung out, threw a cloak over her head and tried to drag the girl into the carriage. Her struggles and screams attracted a crowd, and Policeman Moroney and Fittig hurried to the spot. When he saw them coming Andrea deserted the girl and started to run. The police soon caught him and he was locked up. Pauline, the cab driver and a number of bystanders were taken along as witnesses.

Roosevelt Party in New Orleans.

New Orleans, April 2.—The Roosevelt party spent yesterday in excursions to various parts of the city. The entire party visited the old French market at 7 this morning. It returned to the yacht for breakfast, after which Miss Roosevelt went out shopping with some friends. Miss Ethel Roosevelt, Miss Langdon and Captain Fitzhugh Lee went for an automobile ride over the city. A number of former Rough Riders called on Mrs. Roosevelt and were warmly received by her. Mrs. Roosevelt has received a number of invitations to luncheon and dinners here, but has declined them all. Governor Blanchard and Mayor Behman will probably call officially tomorrow.

Mitchell to Edit Paper.

Indianapolis, April 2.—John Mitchell, retiring president of the United Mine Workers, today announced his plans for the future. He will establish and operate in Indianapolis a labor paper, which will advocate peace between the miners and operators of the country.

"Not only will my paper devote itself to the work of the mining industry," he said, "but all labor in general, although, of course, the miners and operators will be the primary consideration in its columns." Editor Mitchell is assured of a big subscription list to start with, as practically all miners and operators will take it.

Two Hotels Burned.

Meadville, Pa., April 2.—Half a hundred persons had a narrow escape from death and two hotels were destroyed in a fire at Conneaut lake, near here, early today. The only fire-fighting force at Conneaut lake is a small bucket brigade, and for a time the town was at the mercy of the flames. The fire was gotten under control after it had completely destroyed the Taylor Hotel and partially destroyed the Chilcott House. Several barns and outhouses were also destroyed. The loss is estimated at $30,000.

Set Tenement House on Fire.

New York, April 2.—Incendiaries fired the massive tenement at 44 Hester street early today, causing three deaths, while fifteen persons were so severely injured they are now in hospitals. The fire was set under the stairs, and before it was discovered by Policeman O'Neill the stairs had been destroyed. The frightened inmates when aroused jammed the fire escapes and when the firemen arrived they had to resort to life nets to save nearly one hundred persons.

Silverstein Dying.

New York, April 2.—Selig Silverstein, the bomb thrower who was injured in Union Square last Saturday by the bomb with which he tried to exterminate a squad of policemen, is reported dying at Bellevue Hospital today. According to the attending physicians Silverstein will hardly be able to live out the day. Alexander Berkman, anarchist leader, accused of conspiracy with Silverstein will be arraigned in police court tomorrow.

Killed Wife and Himself.

New London, Ct., April 2.—William F. Rogers, a well known attorney of this city, shot and killed his wife and then killed himself by shooting, at their home today. No reason is known for the deed except that Rogers has been suffering from a nervous trouble that almost amounted to paralysis. Rogers was formerly prosecuting attorney and a law partner of State Attorney H. H. Hull. He was a captain in the signal corps of the C. N. G.

Collide with Freight Train.

St. Louis April 2.—Four persons were injured today when Burlington passenger train No. 72 collided with a freight train at Spanish Lake, 16 miles from here. The injured, all local people, were brought here on a freight engine and rushed to a hospital.

Cured of Rheumatism.

Mr. Wm. Henry of Chattanooga, Tenn., had rheumatism in his left arm. "The strength seemed to have gone out of the muscles so that it was useless for work," he says. "I applied Chamberlain's Pain Balm and wrapped the arm in flannel at night, and to my relief I found that the pain gradually left me and the strength returned. In three weeks the rheumatism had disappeared and has not since returned." If troubled with rheumatism try a few applications of Pain balm. You are certain to be pleased with the relief which it affords. For sale by W. F. Creighton and Richard Gibson.

The Racing Bill.

Albany, N. Y., April 2.—By a vote of 27 to 19 in the Senate today the Hart amendment to the Percy-Gray law, one of the anti-racing bills, which already has passed the assembly, was substituted for the Agnew bill which was identical to it and which was advanced last night after hours' of debate. Thus amended, if finally passed, will end race track betting in New York state. The motion to substitute was made in order to get the bill before the Senate in the order of final passage. If the Senate passes the bills of assemblyman Hart instead of the Agnew bills, the legislation will be complete. The backbone of the opposition was competely broken. Senator Grady, however, made a protest on points of order and tried to prevent the procedure. The same motion was made immediately afterward in connection with the bills amending the penal code and Grady again began his tactics for delay.

Senator Grady turned the cleverest trick of his fight when he moved that the admendment to the penal code be referred to the revision committee on the ground that the Hart and Agnew bills, which it was desired to substitute, were not identical. The motion was carried and then it immediately was recognized that the bills had fallen into the hands of the enemy. The revision committee is controlled by Senator's Wemple, Emerson, Sullivan and Soher all strongly opposed to the anti-racing legislation. The other three members are Smith, Saxe and Carpenter. It is expected that this committee will hold the bills as long as possible and then report as unfavorably as possible. This probably will cause much unexpected delay.

Senator Raines said just before recess to-day that he did not believe the race track bills could be passed to-day This will throw the question over until next week.

Indiana Republicans.

Indianapolis, Ind., April 2.—With the platform adopted and out of the way the republican State convention this morning started on the work of naming a ticket. The four-cornered governorship fight is the principal attraction with Charles W. Miller, Wm. L. Taylor, both attorney generals; James E. Watson, "whip" of the national House of Representatives, and Lieutenant Governor Miller as the four candidates.

Workers for all candidates carried on their political game all night.

It is thought Watson will lead on the first ballot with C. W. Miller second, Taylor third and Hugh Miller fourth. Beyond this ballot even the wisest are not guessing.

The first ballot for governor resulted: Watson, 615; C. W. Miller, 393; Taylor, 291; Hugh Miller, 184; necessary to choice, 786.

SAYS SHE WAS DECOYED FROM HOME.

A young girl, who gave her name as Margaret Kern, her age 16 and her home in Philadelphia, appeared at the station house last night after 11 o'clock, where she told a touching story. She said on last Monday her mother sent her on an errand, and while she was near the Philadelphia City Hall a man and woman accosted her and told her that her aunt was in the Broad station of the Pennsylvania Railroad and desired to see her. The girl, supposing the couple were telling the truth, followed them into the depot, where, she says, she was forcibly placed upon a train and compelled to accompany the man and woman to Washington. Upon arriving in that city the couple having her in charge conducted her to a house, where, the girl alleges, they made futile attempts to lead her from the path of rectitude. The girl remained with them until last night when her captives made her accompany them on the streets. The girl says the man and woman entered a saloon and she refused to follow them, but ran away. The girl proceeded down Pennsylvania avenue where she stopped a man and told him of her predicament. The man purchased a ticket for Alexandria, which he gave her, and then placed her on an electric tram. She arrived here half an hour later and proceeded to the station house. Chief Goods has communicated with the Philadelphia authorities, and the girl will be sent to her home.

NO REDUCTION IN WAGES.

There will no reduction in the wages of employees of the Southern Railway and allied companies at this time.

This decision was reached in Washington last night by Chairman Martin A. Knapp, of the Interstate Commerce Commission, and Dr. Chas. P. Neill, Commissioner of Labor, the mediators between the Southern Railway officials and their employees. The mediators found the workmen unwilling to accept a reduction of wages, because, in their opinion, the depression in the earnings of the railway have not continued to such an extent as to justify a reduction.

After full consideration of conditions incident to the inquiry the mediators decided the present wage scale shall be continued until July 1. The company, through its officials, has accepted this judgment, with the understanding that, if by July 1, the condition of the company shall not improve, the subject of the negotiations shall be resumed with the idea of reaching an arrangement based upon the conditions at that time. The employees have acceded to this arrangement.

OLD DOMINION BOAT CLUB.

The Old Dominion Boat Club held their annual meeting in the rooms of the Chamber of Commerce last night, when the following officers were elected: President E. H. Kemper; vice president, George E. Warfield; secretary, L. N. Duffey; treasurer, A. H. Herbert; captain, James S. Douglas, jr.; first lieutenant, J. G. Graham; second lieutenant, J. T. Burke, jr.; board of governors, W. L. Allen, Arthur Bryant, Walter G. Rogers and Gardner L. Boothe. It was decided to revise the by-laws of the club, and Messrs. J. R. Caton, jr., D. N. Hulfish, and C. S. T. Burke were appointed a committee for this purpose. The trustees reported the finances of the club to be in good condition. The painting of the clubhouse has been completed. The interior will be frescoed. Other improvements at the house are also planned.

STATE OF UNEASINESS.

Workmen who returned from their daily employment at the Washington navy yard yesterday were in a state of uneasiness about their positions. In many of the shops the master mechanics would say to the employees who were seeking for something to employ their minds, at least, that there was no new job in and none in sight, and many more men are daily expecting furlough, if not discharge. It is understood that the Machinists' Union have gone to members of Congress and asked that the appropriation made a few days ago be held up until the reason of the furlough is understood. From present indications, there is no relief in sight. Alexandrians have been lucky, though, as only a few from this city have lost out.

Mr. Claude M. Lennon, who for some years past has conducted a popular drug store on King street near St. Asaph, today through his attorney, Mr. Howard W. Smith, filed with the clerk of the United States Court in this city a petition of voluntary bankruptcy. In the bill the assets are given at $1,790 and the liabilities at $2,752.79. Mr. Lennon's many friends will regret to learn of his troubles and hope he will soon surmount them. He will continue his business.

YOUNG MEN'S SENATE.

As has been stated the Young Men's Senate of the Methodist Episcopal Church South will hold a meeting tonight at 8 o'clock in the Young People's Building. An interesting musical and literary programme will be rendered on the occasion. This will be the first open session of the Senate held since its organization. Refreshments will be served at the conclusion of the exercises. Rev. Charles D. Bulla, pastor of the church, who has just returned from the Methodist conference at Roanoke, will be tendered a cordial reception.

ACCUSED DISMISSED.

George Jones, colored, who was arrested several days ago at the instance of a colored woman named Marden Nelson, who charged him with criminal assault and with robbing her of two dollars, was brought into the Police Court this morning. There was no evidence save the unsupported testimony of the woman, and certain circumstances made it possible that it was a case of mistaken identify. Jones was released. He was represented by Mr. R. D. Brumback. This was the only case before the Police Court this morning.

REDUCTION IN FORCE.

On seventeen representative railroads of the United States, constituting one-third of the mileage of the country, the total number of employes is 18 per cent. smaller than on June 30, 1907. The total mileage of the seventeen roads amounts to 71,872 miles. On June 30, 1907, the number of men employed on these roads aggregated 581,718. At present the number is 476,947, a decrease of 104,768, or 18 per cent. A considerably greater number than this gave actually been laid off because the number of employes in last October was greater than in June, the time that the present conditions are compared. Eighteen per cent. of all the railroad employes in the United States last June 30 is 305,000. There were, approximately, 40,000 more men employed on all the railroads in October than in June. Making allowance for this fact, the number of idle employes at present is probably in the neighborhood of 345,000.

After battling with a sea of remarkable fierceness and risking his life in a daring jump from a tug to the brakewater, at Ashtacula Harbor, O., Captain Whitney Carr reached two men he had hoped to rescue only to find them dead. Stranded on the breakwater, the men had perished of exposure in the high seas which had been beaten ever the barricade all night.

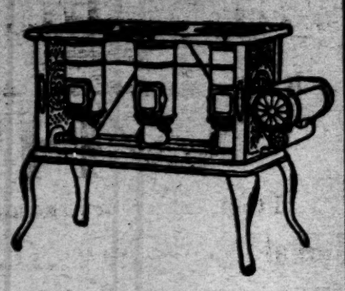
Put This Stove in Your Kitchen



It is wonderfully convenient to do kitchen work on a stove that's ready at the instant wanted, and out of the way the moment you're done. Such a stove is the New Perfection Wick Blue Flame Oil Cook-Stove. By using it you avoid the continuous overpowering heat of a coal fire and cook with comfort, even in dog-days. The

NEW PERFECTION
Wick Blue Flame Oil Cook-Stove

is so constructed that it cannot add perceptibly to the heat of a room; the flame being directed up a retaining chimney to the stove top where it is needed for cooking. You can see that a stove sending out heat in but *one* direction would be preferable on a hot day to a stove radiating heat in *all* directions. The "New Perfection" keeps a kitchen uniformly comfortable. Three sizes, fully warranted. If not with your dealer, write our nearest agency.

The **Rayo Lamp** is the ideal lamp for family use—safe, convenient, economical and a great light giver. If not with your dealer, write our nearest agency.

His Good Eye.

It is a curious fact that the loss of any one of the five senses is atoned for to a considerable extent by a pronounced increase in the efficiency of the other senses. The result is sometimes astonishing.

A man who had lost the sight of both eyes trained his hearing until he could tell by the sound of his footsteps on the sidewalks as he made his way about town whether he was in the middle of the walk or at one side, whether he was walking past a brick or a frame house or a fence or open ground.

He knew in what part of the town he was not only by his memory or sense of general direction, but by the difference in the "tones" of his footsteps, and he walked about freely, seldom running into anything or anybody.

Some one in his presence once called in question his total blindness.

"Which eye do you think I can see with?" he asked the skeptic.

"The left one, of course," was the reply. "I can see that the [illegible] one is blind."

In reply the blind man merely opened his penknife and tapped the left eye with the little blade.

It was a glass eye.

How His Place Was Filled.

A well known divine whose theological discourses draw crowded houses in all the principal cities accepted an invitation to lecture in a small provincial town, but discovered afterward that he had a prior engagement on the same date. He accordingly apologized and offered to make good any loss the society might incur through his delinquency.

A few days later he received a letter from the secretary assuring him that no harm was done and inclosing a handbill which the divine is never tired of reading to his amused friends.

"As the Rev. Mr. —— is unable to give his advertised lecture on 'Conscience,'" announced the bill, "four members of the B—— minstrel troupe have kindly volunteered to perform instead a screamingly laughable farce entitled ——. Any person who has bought a ticket for the other entertainment may have it transferred to this on payment of sixpence extra."—London Tatler.

Interviewing a Chinaman.

I remember one distinguished Chinese who gave the newspaper men a big surprise. We knew that he was a high officer and that he had come to this country on a mission of importance, but not one of us dreamed of getting from him more than a perfunctory interview through one of his interpreters. Through a secretary we conveyed to the big man our desire for an interview. He talked with his secretary in Chinese for a few moments, and then the secretary in halting English invited us to accompany him and the chief to the officer's suit. We filed in, dropped into the seats to which we were bowed by the statesman and waited for somebody to begin.

As we hesitated a peculiar smile lit the big man's face. Lying back in his chair, he cocked one leg over the other, lighted a cigar and dropped a bomb by saying: "Fire away, boys; I'm ready. But before you begin who won the boat race?"—San Francisco Call.

Are Metals Alive?

"Metals have life," said a metallurgist firmly—"not much life, but a little. And metals can be stimulated, depressed, poisoned.

"Platinum wire, immersed in water, gives off an electric current that may easily be measured. If you put bicarbonate of soda in the water, the stimulated wire gives off a stronger current. Put in bromide of potassium, and the depressed wire gives off a weaker current. Finally, put in oxalic acid, and the poisoned wire gives off no current at all. It will never again give off any current. It is dead.

"Now, I leave it to you. If you can depress a metal, exhilarate it and finally administer to it a fatal dose of poison, have you not a right to say that the metal has life?"
